- Integrated options: Bi-directional 3-track MSR and Touch Pad
- Interface: USB
- Footprint: 12.6"L x 8.78"W x 1.43"H
- Liquid Dust Resistance Rating: IP54
- Drivers: OPOS, JavaPOS and WEPOS
- Windows®, Linux, DOS and Mac compatible
- PrehKeyTec WinProgrammer Software
- Warranty: 3 Year
- Color: Black

### Additional Options:

- Customized logo
- Color keys with wear resistant etched symbols
- Double and Quadruple size keys

## Application: RMS

PrehKeyTec's new MCI128BMTURMS is designed to make RMS Software easier to use for retail applications while increasing the value of the POS solution. This keyboard speeds transactions by eliminating keystrokes which allows the clerk to process more customers. Reduced training time allows clerks to become more productive, faster. "Hot keys" are tailored with embedded programming for automation of the most common RMS functions. Colored key caps provide a more professional look and feel while allowing the user to easily locate the required task.

### Features:

- 128 programmable (8 x 16 keys) and relegendable key positions
- Integrated options: Bi-directional 3-track MSR and Touch Pad
- Alpha layout
- Self detecting interface: USB and PS/2 (with included adaptor)
- Liquid Dust Resistance Rating: IP54
- Drivers: POS, JavaPOS and WEPOS
- PrehKeyTec WinProgrammer Software
- Warranty: 3 Year
- Color: Black

### Additional Options:

- Any color for 500 units or more
- Customized logo
- Color keys with wear resistant etched symbols
- Double and Quadruple size keys

### Learn More

As YouTube expands its role as a search engine, resellers and end users alike are increasingly using it to learn more about existing and potential vendors. With that in mind, we recently posted a plant and product video tour which profiles our product line as well as our production capabilities.

[Click Here to see it!](#)

Our video is also included on a Product Support CD which contains English and Spanish language product data sheets, PrehKeyTec drivers, programming software, instruction manuals, and hi-res images.

### Just A.S.K. Us

PrehKeyTec's **Application**

**Specific Keyboards** increase the value of any point of service solution by eliminating keystrokes. Data entry automation means training time is reduced making new employees more productive – faster!

Any environment with daily, repetitive tasks can benefit from an Application Specific Keyboard. Retail, Grocery, Healthcare, Government, Financial. The possibilities are endless! PrehKeyTec MCI keyboards plug in to existing systems via a single USB port and can become operational immediately.

### ASK us how

PrehKeyTec products can add more value to *your* customer's installation.
